ARAI FORENSIC AUDIT: PROGRESS SNAPSHOT

DATE: AUGUST 3, 2026 | STATUS: EVIDENCE CONSOLIDATION PHASE

1. FORENSIC MILESTONES (ACHIEVED)

- **Cryptographic Vaulting:** 10 primary evidence exhibits (V-001 through V-009) have been processed, verified, and locked using the **SHA-256 hashing standard**. This ensures all evidence is immutable and ready for federal submission.
- **Policy Mapping:** We have successfully mapped the administrative obstruction of the P2 pipeline, identifying the direct link between the **April 27th RAIO Operational Pause** and the June 30th mass-denials.
- **Systemic Architecture:** The ARAI Forensic Portal is now live, providing a centralized, secure repository for data collection and transparency regarding systemic processing failures.

2. ACTIVE WORKSTREAMS

- **Data Aggregation:** The Tally Forensic Survey is currently accepting data from affected applicants. We are focused on identifying the specific "Security Queue" bottlenecks to prove automated systemic bias.
- **Legal Drafting:** The *Master Cover Memorandum* is in final drafting (currently at 75% completion). This document synthesizes the legislative intent of EO 14204 with the documented failures of the U.S. Mission to South Africa.
- **Inter-Agency Preparation:** Coordinating documentation formatting to meet the specific requirements of the **DHS OIG** and **CIS Ombudsman** for systemic pattern complaints.

3. THE ROADMAP TO OCTOBER 5

- **Phase III (August 4 – August 31):** Completion of witness testimony aggregation and final verification of the chain-of-custody for all exhibits.
- **Phase IV (September 1 – September 20):** Final dossier review and legal vetting. Finalizing the "Administrative Record of Failure" for congressional oversight.
- **Submission Date (October 5):** Simultaneous delivery of the full forensic dossier to:
 - *DHS Office of Inspector General (OIG)*
 - *CIS Ombudsman (Systemic Pattern Complaint)*
 - *House/Senate Judiciary Committee*
 - *The White House*

AUDIT MISSION: *We are not requesting a lottery ticket; we are auditing the failure of federal due process. Justice is not a discretionary privilege—it is a statutory obligation.*
